Legal Affairs Training: Crisis Management/Communications

Recently, a UNC Charlotte student was in the news for ideations of gun violence. During this presentation, Legal Affairs will discuss the University's approach to such situations and the competing considerations when communicating updates to students, employees, and the media. Presenters will provide an overview of legal standards, University policies and processes, and a behind-the-scenes look at what factors drive decisions about what to communicate and how. You will then walk through a hypothetical crisis scenario together to help attendees better understand the complexities of decision-making during a crisis situation and how the University navigates these challenging issues.
